Vehicle wraps and graphics

Posters and promotional materials

And more!

With its high-quality and environmentally-friendly properties, our eco solvent ink is a great choice for any printing project. Get your hands on a sample today and see the difference for yourself!

Packing and Shipping:

Packaging and Shipping of Eco Solvent Ink

The Eco Solvent Ink is carefully packaged to ensure safe delivery and optimal use. The packaging materials used are environmentally-friendly and recyclable.

Packaging

The Eco Solvent Ink is packaged in sturdy and leak-proof containers to prevent any damage during transportation. The containers are labeled with the product name, batch number, and expiration date for easy identification.

For smaller quantities, the ink is packed in sealed bottles, while larger quantities are packed in airtight drums. The containers are then placed in a strong and durable outer carton for added protection.

Shipping

We offer worldwide shipping for our Eco Solvent Ink. The shipping method and carrier will depend on the destination and quantity ordered.

The ink is shipped in compliance with all international shipping regulations. It is carefully handled and packaged to prevent any leakage or damage during transit.

For international shipments, all necessary customs documents and declarations are included to ensure smooth and timely delivery. Our dedicated logistics team monitors the shipment until it reaches its final destination.

Once the package is delivered, please inspect it for any damage during shipping. In case of any issues, please contact our customer service team for assistance.

We strive to provide prompt and efficient shipping services to ensure that our customers receive their Eco Solvent Ink in perfect condition and on time.
