Product Description:

The FM3520 UV Printer Digital is designed to provide you with high-quality prints every time. With its film coating size of 330mm, you can print on a wide range of materials, including plastic, metal, wood, and more. Thanks to its 600W power, this printer can handle even the most demanding printing jobs with ease. Whether you need to print large banners or intricate designs, the FM3520 has got you covered. One of the most impressive features of the FM3520 Digital Printer UV is its printing speed. With a speed of 1.5m/minute, you can get your printing jobs done in no time. This makes it an ideal choice for businesses that need to produce a high volume of prints on a regular basis. Whether you're printing flyers, brochures, or labels, the FM3520 can deliver consistent, high-quality results every time. The FM3520 UV Printer Digital is also designed to be user-friendly and easy to operate. Its compact design makes it easy to fit into any workspace, and its dimensions of 54*31.5*29.5/cm make it easy to move around and store. The printer is built with a user-friendly interface that makes it easy to navigate and operate. You can easily adjust the settings to suit your specific printing needs, and the printer will do the rest. If you're looking for a reliable, efficient, and user-friendly digital printer, the FM3520 Digital UV Printer is the perfect choice. Its advanced features and high-quality prints make it the best digital printer on the market today. Whether you're a business owner looking to improve your printing capabilities or an individual looking for a reliable printer for personal use, the FM3520 is the perfect choice for you.
