Product Description:

The FM360 Digital UV Printer boasts a stick diameter of 45mm, making it an ideal choice for printing on a variety of surfaces. Whether you need to print on wood, plastic, or metal, this printer can handle it all with ease. Its compact size and lightweight design make it easy to carry around and set up anywhere you need it.

With a power supply of AC110,220/50,60HZ, this printer is designed to work efficiently and reliably, even in the most demanding environments. Its coating temperature of ≤170 ensures that your prints are crisp and clear, with vibrant colors and sharp details that are sure to impress. Whether you are printing logos, text, or images, the FM360 Digital UV Printer delivers stunning results every time.

With a power output of 650W, this printer is energy-efficient and cost-effective, making it a great investment for your business. Its digital UV printing technology ensures that your prints are water-resistant, scratch-resistant, and fade-resistant, ensuring that they last for years without losing their quality or vibrancy.

Whether you are a small business owner, a hobbyist, or a professional printer, the FM360 Digital UV Printer is the perfect tool to help you take your printing to the next level. Its user-friendly interface makes it easy to operate, even for beginners, while its advanced features and capabilities make it a top choice for experienced printers.

So why wait? Order your FM360 Digital UV Printer today and start printing high-quality, durable prints that are sure to impress. Whether you need to print labels, stickers, or images, this printer has got you covered. Don't settle for anything less than the best – choose the FM360 Digital UV Printer and take your printing to the next level!
