Product Description

Product Description:

Our Product

The EPSON UV Printing Ink is known for its excellent chemical resistance, ensuring that your printed stickers will remain vibrant and durable even when exposed to harsh chemicals. This ink is also resistant to fading, ensuring that your stickers will remain bright and vibrant even after extended periods of use.

Each bottle of EPSON UV Printing Ink contains 1000 ml of ink, providing plenty of ink for all of your printing needs. This ink is easy to use and can be applied to a range of sticker materials, making it a great choice for both personal and professional use.

Whether you are printing stickers for your business or for personal use, EPSON UV Printing Ink is the perfect choice. With its high-quality formulation and excellent chemical resistance, this ink is sure to produce vibrant and durable stickers that will stand the test of time.

Quantity	1 Bottle
Printing Type	Digital Printing
Chemical Resistance	Excellent
Adhesion	Excellent
Suitable Printhead	I1600 3200 DX5 DX7 XP600 TX800
Volume	1000 MI
Scratch Resistance	High
Usage	Sticker

Applications:

One of the standout features of this product is its excellent adhesion, making it perfect for printing on stickers. Whether you're creating labels for your products or designing stickers for personal use, this EPSON Ultraviolet Ink will ensure that your prints look vibrant and long-lasting. Its chemical resistance is also excellent, meaning that your prints won't fade or smudge over time.

Another great attribute of this UV Ink for EPSON is its high scratch resistance. This is particularly important if you're printing stickers that will be used in outdoor environments or on products that will be frequently handled. The ink will stay put and won't scratch off easily, ensuring that your prints look great for longer.

In terms of application occasions and scenarios, this ink is perfect for a range of uses. Whether you're printing stickers for your business or creating custom designs for personal use, this EPSON Ultraviolet Ink will deliver exceptional results. Its versatility also means that it can be used for a range of other printing applications, giving you the freedom to explore different design possibilities.
