UV Shielding Primer

Technical Parameters:

Product Name	UV Shielding Primer
Product Type	UV Base Coat
Feature	Environment Friendly
Smell	Low Odor
Property	1000 MI
Waterproof	Yes
Color	Transparent
Cruelty-Free	Yes

Formulation	Liquid
Application	For Acrylic Metal Glass
Product Description	UV Inhibiting Primer that provides excellent adhesion and UV protection for Acrylic, Metal and Glass surfaces.

Applications:

The UV Protecting Primer is designed for use on acrylic, metal, and glass surfaces. Its liquid formulation makes it easy to apply and ensures that it will stay put once it's on. This primer is perfect for use on outdoor furniture, car parts, and even windows to protect against the damaging effects of the sun's UV rays.

One of the main benefits of using Tucai's UV Protecting Primer is its ability to inhibit the effects of UV rays on surfaces. This is especially important for outdoor furniture, which is exposed to the sun for long periods of time. The primer helps to prevent fading, cracking, and other damage caused by UV exposure.

Another great use for this primer is on car parts. The UV Protecting Primer can be used on both the interior and exterior of a car to protect against the sun's harmful rays. This is especially important for parts like dashboards and door panels, which can become faded and cracked over time without proper protection.

Overall, Tucai's UV Protecting Primer is a versatile and effective product that can be used in a variety of situations. Its ability to inhibit UV rays makes it an ideal choice for outdoor furniture, car parts, and more. At 1000 ml, this liquid primer provides plenty of coverage for all of your needs.
